

K-Love has been a great asset to my life on station 88.1 in my area. I know it has brought my family and I closer together as we listen to it every day. It has also brought friends together in my city. This is the only radio station I have ever heard that works to restore the family and community. It is a positive and uplifting source that I turn to every day. Often times, when I feel down and discouraged, I turn on K-Love and it encourages me and helps me get on my feet again. I know many people in my community turn to K-Love to get the positive enforcement they need. K-Love brings us closer together as we all are mutually uplifted. K-Love promotes values and morals, and is a wonderful alternative to every other radio station in my area. There is none like it. People become better by listening to K-Love; they become better people and better citizens. K-Love has strengthened my life so much; I really could not imagine living without it. Please keep stations such as K-Love on the air...they have changed many a life, including mine.
